Polish racing in brief

ENGLISH EDITION

A quick guide for international readers of the Almanach Typera · Służewiec racecourse, Warsaw

Race classes — the ladder

Cat. A and Cat. B races are more important than group races. Within groups, **the lower the number after C, the higher the class**. In Polish these are „grupy" (groups I–IV); the „C" (class) notation is used only for readers familiar with the international system. **Hcp** = handicap; **Div. A / Div. B** = two divisions of the same race.

Gen. HCP — the Polish overall rating

Gen. HCP (general handicap) is the official overall rating of a horse, set by the handicapper of PKWK (the Polish Jockey Club). In handicaps the weights follow it. Separate scales are kept for **thoroughbreds** and **Arabians**; in addition **3-year-old thoroughbreds** and **4-year-old Arabians** each have their own hierarchy, separate from the older horses.

Two breeds

TB — thoroughbreds. **PA** — purebred Arabians. Arabian races carry a type mark:

- **PO** **PA-Open** — open to all Arabians
- **PP** **PA-PASB** — Polish-bred Arabians
- **PE** **PA-KOWR** — horses of show pedigree

WD / GvD — the Kostor Index (Współczynnik Kostora)

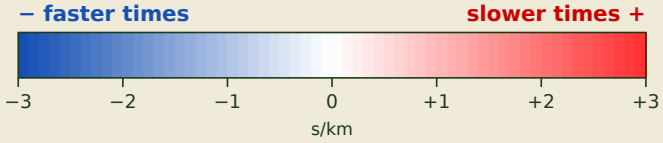

an original project by Łukasz Dębski

A speed index for Służewiec: **how fast the times of a race day really were**, compared with a frozen reference — the median times at Służewiec in 2022–2025, kept separately for each race category and distance.

WD — Day Index. One number per race day: the average deviation of the day's reference races from the standard (outliers trimmed). Published in **s/km**.

GvD — Race vs Day. How much faster or slower a single race was than the level of its day, in **s/km**. A strongly negative GvD = a genuinely fast race, not just fast ground.

Reading the sign

Going. The Almanach gives the official penetrometer reading (P / pen.): the higher the value, the softer the ground. The model expects slower times on softer ground — **WD = 0 corresponds to a penetrometer reading of 3,41**.

Flags. When a day departs clearly from the going model, WD is printed in colour with an arrow: **CZUJNOŚĆ** (alert) or **ANOMALIA** (anomaly); ↑ races too slow, ↓ times too fast.

Rule of thumb: 1,0 s/km ≈ 4,5 lengths (thoroughbred) · 4,0 lengths (Arabian)

Where the data come from

Official PKWK racecard and results (torsluzewiec.pl), our own racecard with Gen. HCP, front-runners and WD / GvD, and the WK databases of thoroughbreds and Arabians racing at Służewiec. Runs away from Służewiec (Sopot, Wrocław, abroad) have no WD / GvD — shown as n/a.

Weights and equipment

Weights in kg; the figure in brackets, e.g. **56 kg (-4)**, is the rider's allowance already deducted. **blinkers** = worn today. Times as in Poland: 1'24,9" = 1 min 24.9 s; decimal comma throughout.

How to read a race card

ENGLISH EDITION

Every race has its own card: the starting list, each runner in detail, head-to-head meetings and notes

1. **Header** — race number (number of the race in the season), breed (TB / PA) and age, class, distance and off time; the bottom bar gives the conditions and the prize money.
2. **Runners** — saddle-cloth number, owner's colours, jockey and weight; (-4) = rider's allowance.
3. **Horse** — name, country of breeding, sire – dam by damsire, age, colour and sex; ★ **FRONT-RUNNER** = led during the race in at least 2 of its last 3 starts.
4. **Trainer / jockey** — trainer, today's jockey, weight and Gen. HCP. Jockey in **blue** = change of rider (‹ previous rider in grey), in **green** = rider returning after a break.
5. **Starts / Won** — career starts and career wins.
6. **Wins · Form · Note** — every career win (date | age | race | weight; distance | time | penetrometer | WD and GvD of that day), Form 2026 with earnings, and the analyst's note.
7. **Last 3 starts** — date (red), class, distance, time, winning style, penetrometer, WD | GvD; then the first six home with distances. Described horse **blue**, today's rivals **green**, distances **orange**; „--->" = lengths between the 6th and the described horse.
8. **Stars and Fx** — clickable boxes — mark your own selections directly in the PDF.

Also on the cards

Head-to-head meetings in 2026 (H2H) — earlier races this season at Służewiec in which today's rivals met: their placings, the lengths between them and, in brackets, today's weight minus the weight carried then.

Programme selections — the tips printed in the official PKWK racecard. **Notes / Sources** — remarks on the data used for the card.

Distances: nse nose · shd short head · hd head · snk short neck · nk neck · dh dead-heat · dist. distance; numbers = lengths.
Winning style (easiest first): in a canter · very easily · easily · comfortably · pushed out · driven out · all out.

Two-year-old cards

Juveniles get a block layout: **b.** date of foaling, colour and sex, **form** (placings) and **earned** (prize money) in the name bar.

DP / DI / CoD — Dosage Profile, Dosage Index and Centre of Distribution (pedigree speed–stamina balance; source: Equineline).

Sale — price and yearling sale. **H-G-C** — height at withers – girth – cannon bone in cm (PKWK Bulletin).

Last 3 starts — as on the other cards; „debut" = unraced so far.

Notes:
- Withdrawn: no. 2 Racing Green (FR).
- Racing Green, Gro and Szekla – run of 8.11.2026 (race 7) added from the racecourse website, counted in starts and Form 2026.
- „*” in the racecard line = dead-heat (Furor Divinus, 2025: 3*).
- WD;GvD: n/a for runs abroad, at Sopot and at Wrocław.
- WD flag legend: CZUJNOŚĆ (ALERT) = orange, ANOMALIA (ANOMALY) = red (only the WD value on a flagged day is coloured). Arrow next to WD: ↑ times too slow, ↓ times too fast. WD/GvD — Kostor Index (Day Index ; Race vs Day) [s/km]; positive = slower than the model, negative = faster. P / pen. = penetrometer reading (going). C-I…C-IV = Polish race groups I–IV (in Polish: „grupa”); the „Class” notation is used for readers familiar with the international system. Cat. A / Cat. B = Polish categories A and B. Distances: nse = nose, shd = short head, hd = head, snk = short neck, nk = neck, dh = dead-heat, dist. = distance. Gen. HCP = general handicap rating.

Sources: Official PKWK racecard (PG_45.pdf, day 45, 14.11.2026); own racecard HCP/★FRONT-RUNNER/WD;GvD (PG_45_26_final.pdf); thoroughbred database (folbluty_2026_31-10_FINAL.xlsx); results of day 44 (torsluzewiec.pl).

Notes:

• Belarda – run of 8.11.2026 (race 4) added from the racecourse website, counted in starts and Form 2026.
• „*” in the racecard line = dead-heat (Oasis King 21.06 – 1st with Streak; Merkucjo, Stella Dal Cielo – 3rd place).
• Tamam Body Zane – no Gen. HCP (one start).
• WD;GvD: n/a for runs at Sopot and at Wrocław.
• WD flag legend: CZUJNOŚĆ (ALERT) = orange, ANOMALIA (ANOMALY) = red (only the WD value on a flagged day is coloured). Arrow next to WD: ↑ times too slow, ↓ times too fast. WD/GvD — Kostor Index (Day Index ; Race vs Day) [s/km]; positive = slower than the model, negative = faster. P / pen. = penetrometer reading (going). C-I…C-IV = Polish race groups I–IV (in Polish: „grupa”); the „Class” notation is used for readers familiar with the international system. Cat. A / Cat. B = Polish categories A and B. Distances: nse = nose, shd = short head, hd = head, snk = short neck, nk = neck, dh = dead-heat, dist. = distance. Gen. HCP = general handicap rating.

Notes:
• Withdrawn: no. 4 Ruby Bell (IRE).
• Runs of 7.11 (Bombay Szafir, US Marines) and 8.11 (Enjoy Your Dream) from the racecourse website, counted in starts and Form.
• „0” in the line: Korynt 2026 = did not finish (counted); Space Bear 2025 = left at the start (not counted). Space Bear without HCP.
• WD;GvD: n/a – Wrocław, Sopot.
• WD flag legend: CZUJNOŚĆ (ALERT) = orange, ANOMALIA (ANOMALY) = red (only the WD value on a flagged day is coloured). Arrow next to WD: ↑ times too slow, ↓ times too fast. WD/GvD — Kostor Index (Day Index ; Race vs Day) [s/km]; positive = slower than the model, negative = faster. P / pen. = penetrometer reading (going). C-I…C-IV = Polish race groups I–IV (in Polish: „grupa”); the „Class” notation is used for readers familiar with the international system. Cat. A / Cat. B = Polish categories A and B. Distances: nse = nose, shd = short head, hd = head, snk = short neck, nk = neck, dh = dead-heat, dist. = distance. Gen. HCP = general handicap rating.
